

Dear FCC,

I am an XM subscriber since 10/03. The addition of Local Traffic and Weather has been invaluable to me as I commute with my car daily. I respectfully request that you REJECT the National Association of Broadcasters petition MB 04-160.

I would like to make a couple points on the Petition:

- 1) Sounds like the reverse of #2 do they want everything?
- 2) Locally oriented news on a national station. Hmm... The Weather Channel, local, accurate and dependable, yet nationwide, need I say more?

Lastly, the impact of satellite on local broadcasting? Is this like Broadcast television vs. Cable Television vs. Satellite Television. We pay for Satellite radio as a Service, just like my monthly cable bill. This seems ludicrous. I am certain the NAB has something better to do with their time and money than create issues where there are none. Please REJECT Petition MB 04-160.

Thank you.
